

Removal of leaves

Just a reminder to dispose of yard waste in a proper manner and not place any of the leaves, yard waste or grass clippings in the street. These items clog the storm sewer inlets and lines which then restricts the flow of water through the storm sewer system. The result can be street and possibly private property flooding. Organic material can be composted or disposed of through your solid waste hauler.

SNOW EMERGENCIES

The City of Gretna will notify the press which includes all the local television stations when a SNOW EMERGENCY is called. When a SNOW EMERGENCY is called, all parked vehicles, trailers or other obstructions are to be removed from the city streets during the specified time of the SNOW EMERGENCY. This allows our crews the ability to move the snow to the curb. Cars left on the street will be tagged and possibly towed at the owner's expense. If the crews cannot push the snow to the curb, these areas become icy and are almost impossible to clean later. These icy areas become traffic hazards for those traveling down the street. We ask everyone, if you suspect a snow storm is coming, please keep your vehicles off of the street. The City wants to have a safe passable street for you, your neighbors, and the traveling public. Clean streets are also important for emergency vehicles that are trying to get to a call. For further information on this policy please go to the City's website at www.gretnane.org. In the City Code section of the site look under Section 4-216.

The City of Gretna appreciates your cooperation!

Before The Cold Weather Sets in

- Check Sprinkler or irrigation systems. Make sure everything is turned off and drained.
- Eliminate sources of cold air near water lines. Fix drafty windows and plug drafts around doors. Identify your home's freezing points.
- know how to shut off your water.

When Temperatures Stay Below Freezing

- If pipes run through cabinets or vanities, open the doors to let warm room temperatures flow in.
- Keep water moving through the pipes by allowing a small trickle of water to run.

If Your Pipes Do Freeze

- Shut off the water immediately.
- Thaw pipes with warm air, with a hair dryer or space heater. Do not leave space heater unattended and do not use kerosene heaters or open flames.
- Be careful turning water back on. Once pipes are thawed, slowly turn the water back on and check pipes and joints for any cracks.

The City Hall will be Closed

November 28th, 2019 (Thanksgiving Day)

November 29th, 2019

You can FRIEND us at "City of Gretna, Nebraska". You will receive notices on job openings, the City Calendar, and recent notices that we also post on our website.
